T&K Lighting Management System (T&K LMS)

Characteristics of T&K Lighting Management System (T&K LMS):

- Energy savings ranging from 15% to 40% with payback period in 2-3 years in general.
- Turn non-dimmable lighting systems into dimmable one without major changes in wiring and infrastructure.
- High compatible with all types of discharge lamps and ballasts.
- No modification of luminaries is required.
- Easy installation and user friendly.
- Operates with communication platforms to improve the operational efficiency

研能節能照明管理系統

研能環保節能照明系統產品特點：

- 可節省 15-40% 的能源，一般回本期 2-3 年。
- 在最少的改動下，將不可調光的照明系統變為可調光
- 兼容大部份放射燈和鎮流器
- 無需改動現有燈具
- 容易安裝和使用
- 配備資訊科技系統，提升效率及操作靈活性

Comments from Judging Panel 評審委員會評語

It is a good product for energy saving designed by a local company. With the product promotion they deliver message of energy saving and social responsibility to the customers.

這是一個由本地公司創作的優秀節能產品，產品宣傳帶出了節能及對顧客的社會責任的信息。
